A Report on the Visit to RajBhavana, Kolkata

Date of programme: 23rd November, 2017
Venue: Raj Bhavan, Kolkata
Total participants: Students: 49, Teachers: 8 and Non-teaching staff: 3

Preface

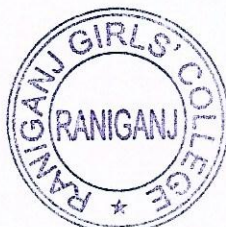

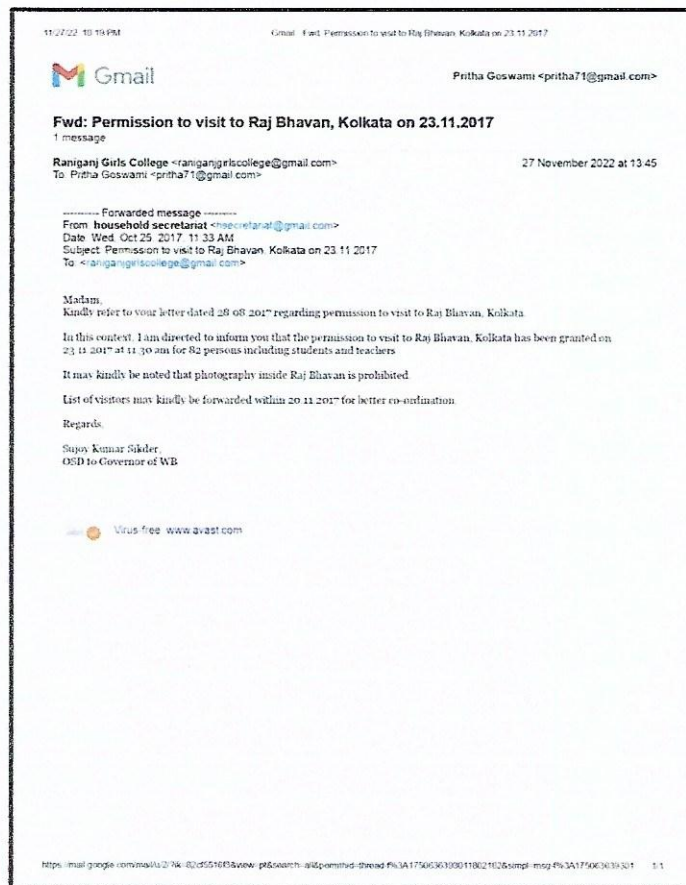

The Raj Bhavan in Kolkata is the official residence of the Governor of West Bengal in India since independence. Also known as the Governor's House, the building is a legacy of the British colonial rule in India. The sprawling structure bearing the imprint of imperial architecture was constructed in the nineteenth century and is spread over an area of more than 27 acres. The House has been the official residence of British Governor General and Viceroy of India until that time when the capital of India shifted from Calcutta to Delhi under the British rule

A visit to RajBhavan, Kolkata on 23rd November 2017, Thursday was organized as an educational tour by the National Service Scheme Units of Raniganj Girls' College with 49 students, 8 teachers and 3 non-teaching staff of the college.

Objectives

- To take a guided tour of the interior of Raj Bhavan,
- Study the rich cultural heritage of the building
- Learn about the treasures that are housed behind the walls of this building
- Use the knowledge in a students' project on Visit to Raj Bhavan, Kolkata

OUTCOMES

1. The design of the Governor's House was adapted from the plan of Kedleston Hall in Derbyshire in Britain built for one of the forefathers of Lord Curzon of Kedleston. The three storied building is designed with a central part with four separate wings in each corners connected with the central part with winding corridors.
2. The building houses a library with a rich collection of books, journals, codifice made from vellum, a lithographed copy of the original illustrated Constitution of India and so on
3. The Governer's House also houses rare photographs, paintings, sculptures and artifacts which are centuries old.
4. The educational tour left behind an everlasting impression on the students and the teachers of the college about the art, architecture and heritage of the country that they came across in the Raj Bhavan.

Report of the Orientation Course for NSS Programme Officers Organized by Raniganj Girls' College in Collaboration with Training Orientation & Research Centre, Ramkrishna Mission Ashrama, Narendrapur

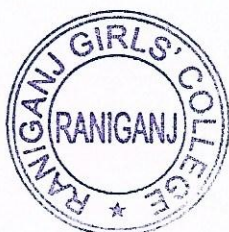

Title of the programme: Orientation Course for NSS Programme Officers
Organizing institute: Raniganj Girls' College
Collaborating institute: Training, Orientation & Research Centre (TORC), Ramkrishna Mission, Narendrapur
Venue: Raniganj Girls' College
Programme coordinator: DrTushar Kanti Banerjee
Participants: 24 NSS programme officers from different colleges
Date of commencement of the orientation course: 17 September, 2017
Date of completion of the orientation course: 23 September, 2017

Purpose and objectives of the programme:

The National Service Scheme, more commonly known as the NSS, has been rendering invaluable service to the country with its wide range of activities and services. The primary objective of the NSS has always been to develop the students' personality through community service. Therefore, the need was always felt to make the students aware of their social responsibilities and enable them to perform their duties. In order to train and mentor the students as to how they can become responsible members of the society, a good number of trained teachers are required in educational institutions. It is with this objective in mind that the orientation course for the NSS programme officers of different colleges was organized by Raniganj Girls' College in collaboration with Training Orientation & research Centre, Ramkrishna Mission Ashram, Narendrapur.

Programme outcome:

The week-long orientation course threw ample light on variegated issues and topics related with the NSS. Prof. Tushar Kanti Panda, the Coordinator, ETI, R.K. Mission Ashrama, Narendrapur, conducted a most engaging session on the history, philosophy, objectives, motto and emblem of the NSS. Prof. Amitava Khandait spoke on the regular activities of the NSS as well as on the special campaign programme. Smt. Sarita Patel, the Regional Director, NSS Regional Directorate, Kolkata explained the financial and administrative structure of the NSS as well the various youth programmes/ schemes of the Government of India. The participants also got to know from the highly experienced resource

persons about different topics such as role and functions of NSS personnel at different levels, adoption of village/slum, disaster management, maintenance of accounts, roles and responsibilities of an effective NSS programme officer, methods of working with people and community, leadership and personality development etc.

Challenges (if any) met during the programme:

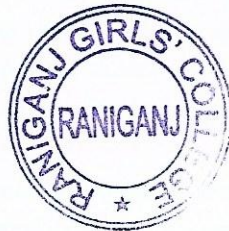

The challenge that was faced by the organizers was rather a welcome one. There were a good number of brilliant resource persons and speakers at the orientation course, and it was quite a challenge for the organizers to allot them sufficient time to bring home to the audience the crux of their lectures and presentation. The organizers, however, managed the entire orientation course with considerable success.

Scope for future projects:

The response of the participating NSS programme officers was so spontaneous and overwhelming that it provided motivation for similar future projects. It was also considered whether any of the ideas received from the orientation course could be immediately implemented.

Conclusion:

The orientation programme was a highly successful one with all the participating NSS programme officers taking a clear idea to their institutions as to where they stand in terms of the NSS activities in their institutions, what they lack most specifically and what are the areas and issues that need to be addressed by them as soon as possible.

2018-19

Report of the Training of Trainers (TOT)

Title of the Programme: Training of Trainers (TOT)
Organizer: Nehru Yuva Kendra Sangathan
Venue: National Power Training Institute, Durgapur
Participants: NSS Programme Officers of different colleges. Dr Tushar Kanti Banerjee represented Raniganj Girls' College in the programme.

Date of commencement of the programme: 27 August, 2018

Date of Completion of the Programme: 29 August, 2018

Purpose and Objectives of the Programme:

The chief objective of the programme was to help the NSS programme officers execute the numerous NSS activities they have been already performing in their colleges in a more organized and systematic way. The idea was also to acquaint them with other outreach activities that come under the NSS. The three-day training involving several NSS programme officers would also be a mutually rewarding experience for them.

Programme Outcome:

The training was a highly enriching experience for the participating NSS officers. The resource persons of the training made good use of their knowledge and experience to familiarise the NSS officers with the areas and issues that are covered by NSS. Apart from pinpointing the aims and objectives of the NSS time and again, they also recapitulated anecdotes that not only engaged the attention of the participants but brought home to them the ideas associated with them more succinctly. Dr Tushar Kanti Banerjee was all praise about the training.

Challenges (if any) met during the programme:

There was no such challenge that was met during the programme. The only constraint was that of time. The areas and activities of the NSS are too immense to be covered in a three-day training. That said, the resource persons tried their best and succeeded to a great extent to train the NSS officers about how to better perform the NSS activities in their colleges. Specially noteworthy was the motivation provided by Mr Nabin Kumar Naik, the State Director of Nehru Yuva Kendra Sangathan, West Bengal.

Scope for future project(s):

The three-day training, apart from being highly benefiting for the participating colleges, also served as a model for them for similar future projects. The programme officers would certainly discuss with the college authorities if more such programme and training could be arranged in their institutions for the furtherance of the cause of the NSS.

Conclusion:

The training proved more than fruitful for the participating colleges for better organizing the NSS affairs in their institutions. The need for more and more training programmes like this was greatly felt during the programme.
